H SERIES HYDROTHERAPY

So you've managed to achieve success. But it comes at a high cost.

Your high profile lifestyle is now fraught with busy schedules, stiff deadlines, back-to-back meetings followed by late night dinners, parties, etc.

Indeed, all the trappings of a jet setting life and the stress and complications that go with it. All of which adds to stress & tensions, besides building up toxins and releasing harmful free radicals. On a lower scale it leads to fatigue, acidity and a wormout look. However, prolonged exposures could lead to even more serious conditions like diabetes, heart disease, stroke or possibly cancer,

A hectic lifestyle deprives you of regular exercise, visit a health club or a spa. Thereby closing all avenues of unwinding or destressing and preparing a recipe for disaster.

But now you can still bid goodbye to the health club and yet feel fit and relaxed right in your home.

Apple's H Series hydrotherapy solutions uplift your mind, body and spirit, indulge in the luxury of any of Apple's bathing systems and simply ease away all traces of stress. Experience peace of mind and total rejuvenation of your body.

Apple offers you an entire range of whirlpool systems installed in the comfort of your own luxurious bathroom. Feel all the tiredness seeping away from your tensed muscles and your energy come flooding back.

Choose from a gentle and relaxing or invigoration and energising massage to suit your requirement.

- ONLINE HEATER

Music Therapy entails using sounds to balance our energy centres and vibration to relax, energise and heal.

An Apple Whirlpool Massage is a trans-frequency massage, which is distinctly different from other bath products. It efficiently produces kinetic energy using a combination of pressurised water and air delivered through strategically positioned jets.

Chromotherapy is simply the use of the seven healing in the mind and body.

The body is now ready for the second phase. Heat begins to penetrate even deeper, past the epidermis and into the dermis. The intense massage promotes the elimination of toxins that build up in your body over the course of the day. Your well-relaxed joints & muscles become more limber & easier to move without pain.

Apple Airpool Massage is a superior and comprehensive form of massage which.

- Produces an intense calm
- Hydrates skin, making it softer
 - Improves circulation
 - Relieves "muscle guarding"
 - Promotes tissue rejuvenation & flexibility.

Life is beautiful, yet it often demands more. Instead of allowing you to sink in the stress, the best way is to refresh your body and soul with element of right pressure at right place at right time. Revive yourself and rejuvenate yourself and make your day refreshingly beautiful.

apple present Hero Series pressure booster system

It is designed to deliver the real bathing experience at your place most economically and with ease of installation. One more step ahead of the toughest of pumps, which delivers water at the right pressure so that all the modern fittings like Shower panel, Jacuzzi's, Showers, Steam enclosures, etc need to perform at their best.

Self Priming Monoblock Pump Set

PERFORMANCE HB-100B/HB-101BS

- Head : up to 32 to 45 Meter
- Maximum suction lift : 8 Meter
- Discharge : up to 35 to 50 LPM
- Power rating : 0.5 Hp & 1.00 Hp
- Power supply : single phase
- Suction and discharge : 25mm
- Current load : 3 AMP and 6 AMP
- Maximum ambient temperature : +40°C
- Pump body and impeller : cast iron / bronze
- Mechanical seal : ceramic or graphite
- Speed & frequency : 2850 rpm / 50 Hz
- Insulation class & protection : B class / IP 45
- Motor housing & duty : Aluminium / continuous
- Winding : copper impregnated with epoxy resin

HERO SERIES		
HB-100B	0.5 HP S.P. pump electronic dry run kit with socket system (3.5 bar)	7,500
HB-101B	1.0 HP S.P. pump electronic dry run kit with socket system (5.5 bar)	10,500

APPLICATION

- Shower and other bathing gadgets
- Ideal for pipelines with low pressure
- Automatic distribution of pressurized water from storage tank
- Use for high pressure water supply & car washing

FEATURES

- Automatic switch on / switch off
- Low power consumption / minimal noise
- Easy socketing eliminate opening of pump and pressure kit
- Easy to install & ready to use
- Dry run protection (tank model are without dry run)
- Useful for 1 to 5 bathrooms
- The modern fittings like mixer taps, shower panel and steam cubical require an optimum pressure is normally not available with an overhead tank, our system makes the presence of such fittings more meaningful.
- Rugged design

PERFORMANCE : HB-200B/HB-201B/HB-202B

- Head : up to 32 to 53 Meter
- Discharge : up to 40 to 60 LPM
- Power rating : 0.5Hp, 0.7Hp & 1.00Hp
- Power Supply : Single phase
- Suction and discharge : 25mm
- Current load : 2 AMP, 3 AMP and 4 AMP
- Maximum ambient temperature : +40°C
- Pump body and impeller : SS304
- Mechanical seal : ceramic or graphite
- Speed & Frequency : 2850 rpm / 50Hz
- Insulation class & protection : F class / IP55
- Motor housing & duty : Aluminium / continuous
- Winding : Copper impregnated with epoxy resin
